THE WARLOCKS RELEASE NEW ALBUM AND ANNOUNCE FALL TOUR DATES

*"The L.A. group's new "Heavy Deavy Skull Lover" amplifies the best of that (Velvet Underground) influence and fuses it to a droney, dreamy psych-rock that's reminiscent of U.K. underground legends the Telescopes." – **TIME OUT NY***

*"It's possibly their best album" - **BROOKLYN VEGAN***

*"Halfway into their set, they kicked in a fast strobe light that pulsed at the loud, end parts of their tunes, all the while, you still just staring at silhouettes. Yet, all of these "antics" forces you to focus on their music, and they've gotten better since I last saw them. They feel more melodic at times, and they've stopped relying on special instrument effects as a defense mechanism. They seem to have made a conscious effort to push themselves a bit, while maintaining their original feel they've cultivated over the years." – **VILLAGE VOICE (BLOG – CMJ Live Review)***

*"One of the best bands from California's never-ending '60s revival scene, The Warlocks play delightfully gloomy, swooning psych-rock with a sense of humor." – **NEWSDAY NY (CMJ Preview)***

*"One of the top ten albums of 2007 so far - Highly recommended." – **LOSINGTODAY.com***

The Warlocks will release their new album, ***Heavy Deavy Skull Lover***, through **Tee Pee Records** on October 23, 2007. This is the follow up to ***Surgery*** (Mute, 2005). After completing 3 shows during CMJ, The Warlocks will tour North America with **Darker My Love**.

Picking up where the Los Angeles band left off, ***Heavy Deavy Skull Lover*** still features the core members of the Warlocks: Bobby Hecksher (vocals, guitar, bass, keyboards), Jenny Fraser (bass), Bob Mustachio (drums) and Jason Anchondo (drums). An additional 2 more players will be added for the touring band.

Heavy Deavy Skull Lover is even more impermeable and darker than the previous releases. Bobby Hecksher promises that he will return to writing floating melodies but this is the type of album he always wanted to make, one that is even more shrouded in mystery, exploring deeper sonic freakouts and lyrical brain twisters.

Manning the controls in the studio was the band's old friend **Rod Cervera**, who recorded their first EP ***Rise and Fall***. Rod's credits include Weezer, Lavender Diamond, Young People and Silversun Pickups. The first focus track from ***Heavy Deavy Skull Lover*** is "So Paranoid."
