CORNERSHOP LEAK NEW SONG FROM UPCOMING ALBUM

Cornershop & the Double 'O' Groove Of Due Out March 2011

After extended time in the studio, **Cornershop** premier their first track, "**United Provinces of India**," from their new album featuring **Bubbley Kaur** on vocals. Released on the band's own label, Ample Play, **Cornershop & the Double 'O' Groove Of** is a project that's been in the works since **Kaur** guested on the band's now-classic 2004 single "**Topknot**," which got a killer remix treatment with a guest vocal by **M.I.A.**

Writer & producer **Tjinder Singh** has commented on the new longplayer, "The full-length album was started on as early as 2005, and rather than rushing it, I thought I needed to take the time to put it out properly. It's the type of album I've wanted to have out since my youth and enthusiasm for raw Punjabi folk music - no auto-tune in sight. Little did I know it would be with a lady that I overheard singing whilst in my local launderette."

So here is "**United Provinces of India**," the debut track from an already hotly tipped album that comes out after the New Year, then the festivities begin.
